Kampala, Uganda

I made a mistake for not changing the date of the amount received. The date is October NOT August. I spent \$1200 from what came from Kentucky on Rosemary's rent, the rest went for other things in the church.

Well I will need to verify with the bank the exact amount came. All I see is the Uganda Shillings equivalent. I do not see the actual dollar amount in my account. My account is Uganda Shilling savings account.

But I have emailed you the correct financial report. I also want to apologize that the error occurred in this month only. I did this report in a hurry because of your urgent request that all my reports should come at once. Normally I should have given the financial report time even to verify with the bank as to how much Dollars were actually sent. If this error has hurt me as it was not intentional. The pressure of work and family play a big role. I never sleep except past midnight, because I must make sure children are safe in their beds then start to study up to about and after midnight. Even reports are done after midnight. But I am hurt that I could make such a mistake. But I also beg that you be patient with me next time.

Please email me your concern again, if you are still not satisfied with my explanation.

(The report was not correct as you will see in my explanation above. Sorry for the inconveniences caused. This was not me with my lengthy experience in banking. It must have been fatigue. I never proof read that report, for example. SORRY).

Thank you, but forgive me.

Francis

Financial report for October 2008.

Many thanks for the congregations and brethren who gave support towards the Lord's work in Uganda. Again, early in the month was hard but the Lord used a few decent brethren to send us support, to the glory of God. Many thank to you all for the good work.
